Hi Dustin-
Thanks for the clarification. Looks like the alias is working properly again...
Best,
Jim

Jim,
It was set up so that www.nist.gov/pqcrypto redirects to the csrc site, and it was working. However, someone just pointed out this week it seems to be down. Not sure why.
Dustin

Subject: Alias request

Hi-
Recently, a Federal Register Notice was published re: one of our news programs, on Post-Quantum Cryptography. The PQC homepage is: <http://csrc.nist.gov/groups/ST/post-quantum-crypto/>
Unfortunately, the Federal Register Notice, <https://www.federalregister.gov/articles/2016/08/02/2016-18150/>, links multiple times to <http://www.nist.gov/pqcrypto> instead of linking to the URL above.
Is it possible to create an alias to redirect people to the link on CSRC? It would be much easier to do this (hopefully) than trying to get the Federal Register Notice changed—especially because the Comment Period associated with this FRN **closes on 9/16**.

Thank you,
Jim
