Subject: [pqc-forum] CBCrypto23 -- Call for Proposals
Date: Thursday, January 12, 2023 06:06:03 AM ET

Dear colleagues,

We are excited to announce the 4th edition of the International Workshop on Code-Based Cryptography (CBCrypto23) and invite you to submit your proposals. The workshop, organized as an affiliated event of Eurocrypt 2023 in Lyon, will feature both contributed and invited talks.

Initially, we are accepting talk proposals (no longer than 2 pages) with a submission deadline of March 1st. The detailed call for proposals can be found on our website at <https://www.cb-crypto.org/call-for-papers>. The authors of accepted talks will later be invited to submit a full version to a peer-reviewed LNCS special issue.

In addition, to bringing together the existing community and welcoming new members, the workshop will also serve as an ideal platform for discussions on the fourth round NIST KEM-candidates. We have already secured some amazing invited speakers for the event, and have some more exciting surprises in store. So, stay tuned and prepare your proposals.

See you in Lyon!

Andre Esser and Paolo Santini
CBCrypto23 General Chairs
