Hi Dustin —

I looked over the stuff at www.nist.gov/pqcrypto, and the slides from your talk at PQCrypto 2016. The competition looks very interesting, and I'm looking forward to finding out more at future meetings. When the CFP goes out I'll let Chris Peikert at Michigan know (he works on lattice-based cryptography). Talk to you later!

Carl,

I'm attaching our latest version of our Submission requirements/Evaluation criteria document, so you can get familiar with it. Please don't distribute it to anyone outside of NIST. On Friday, the finalized version will be posted on our website:
