Ray, Daniel, Jacob, and Yi-Kai,

Attached are the most recent versions of the FAQ and CFP. Please use them as you edit. Here are the assignments:

Daniel – edit your FAQ bullet

Ray – write a post summarizing our approach to quantum security in the CFP for the pqc-forum

Yi-Kai – edit Ray’s FAQ bullets on quantum security, in addition to 4.A.5

Dustin – write a post summarizing our changes dealing with KEMs, along with the API to be posted in the pqc-forum

Jacob – write a summary of the comments and how we responded to them

Daniel, Ray, Yi-Kai (and myself). Please get these done this week. Next week we hit November.

Thanks!

Dustin
