I was downstairs chatting with Lisa and Gordon stopped by, so we ended up talking about your competition. Gordon thinks you are free to go free only. He thinks this is a local decision based on your analysis on how to best accomplish your mission. He has talked to Henry about this. He seemed surprised that CSD is going with the compromise position. He doesn't think this is necessary. Lisa is happy to do anything she can to document this and help you.

I am presuming you are lightweight cryptoing. I'll be around later today. Or talk to Lisa.

Barbara
