Hi Meltem,

I will be talking about post-quantum crypto. I am glad you are going too 😊

Rene

Subject: Real World Crypto

Hi Rene,

I plan to attend the Real World Crypto Conference and maybe give a small rump session talk on our Lightweight Crypto Project. I saw you are presenting too. May I ask what the topic will be? If it is a general talk on the projects of NIST, it does not make sense for me to separately talk about the Lightweight crypto project. Otherwise, it is a very good venue to present updates on lightweight crypto.

Thanks,
Meltem
