Murugiah wants to discuss next Tuesday when he's back. I don't think it hurts to get started on the list of libraries now.

Larry

I don't think it hurts to wait a day or two to see if Larry gets an answer, and then we can give a much better explanation on the forum.

consider guaranteeing (in a specific install directory and with a specific version of said library) will already be available on our reference platforms (besides GMP and NTL, which I already figure are "MUST-HAVE")?

Or are we waiting on Larry and that VM idea?
