Subject: Lima updated submission?

Hi Dustin,

I was just looking at the Lima PQC submission. It looks like the Sharepoint directory still has the old version of Submission.pdf, but not the new one. I found the new version of Submission.pdf inside one of the zip files, but I think we should copy it out of the zip file and into the main directory. Can you do this? I tried, but I don't think I have permissions.

Thanks!
