---

Lily,

I agree with you, and can be the one to acknowledge the submissions received.

To date, this is the 2nd submission received.

Dustin

**Subject:** RE: Do We Want to Individually Have At Least One of Us Acknowledge Receipt of Every Submission?

I think we have **one and only one** team member to acknowledge on the behalf of the team. (**Not at least one!**) Furthermore, we need to record the submission we received. I think the hard copy portion will be mailed to Dustin. I hope Dustin can do it so that we have a centralized collection. Dustin may ask for help to look at the submissions. I think we had better not to reply separately to the submitters for any matter unless we have all agreed. We need an organized effort.

Lily
