Rest assured, I'm making sure we follow the rules. Lily will be back next week, but I'm in contact with Sara who is telling me such things....

Thanks for the input.

Subject: announcement

Hi, Dustin,

I would suggest that we make an announcement at real world crypto. We can tell Dan that that is our plan as well, so that they can plan for their workshop. The pqc-forum announcement seems entirely appropriate to me, but to be honest, for this type of announcement even that route might technically need to be WERBed. I'm not sure on the rules, but I think that we should not be confident that we are free to do this without review. Perhaps Lily or Morrie might know better.

Cheers,
Daniel
