In response to Brad's email, Friday is okay with me. I'm much more free this semester than usual, but of Tuesdays and Thursdays I'm teaching from 11-12:15, 4-5:15. Other than that I can move most things around or miss them altogether. Thanks!

Great. If nobody else volunteers, we'll set it up with you first on the schedule.

Dustin

Subject: Multi-Talk

The subject line is what I'm best at.

I can give a talk on Ding's Extension Field Cancellation. It is quite interesting. I don't know what we're going to do with it. I can do a presentation any time if I have at least a week notice before the talk.

Cheers,

Daniel
