Subject: Re: Summer Visit to NIST
Date: Wednesday, June 1, 2016 5:10:34 PM

Dear Lily,

Thank you very much for the detailed information!

(b) (6)

My planned summer stay is from July 1 to September 30, and would be funded by my current scholarship. I will submit an application to the NIST guest researcher program for October 1, 2016 to September 30, 2017.

Of course, in case of a positive decision regarding the NIST guest researcher program would be taken in the coming weeks, (b) (6)

(b) (6)

Regards,
Nicky

You are welcome to visit us. Please let us know ahead of the time because we need to register you for visitor pass. For non-US-citizens, it will take 2-3 business days. Each register is for 1-3 days.

in the summer months? And if so, would it be possible to arrange an invitation letter in spite of this rather short notice?

>

> In particular, I'm interested in exchanging ideas with you and your team related to lightweight and post-quantum cryptography, two areas that I've explored intensively during my two-year stay at Inria in Paris. But I'll also gladly discuss efficient hardware implementations, a topic on which my KU Leuven colleagues and I recently had an e-mail discussion with Rene, Çağdaş and Meltem.

>

> I can self-fund my visit, as my postdoctoral scholarship lasts until the end of September. As I plan to stay for less than 90 days, I do not require a visa to travel. I should let you know that may not be available every day: I also plan to give some lectures at universities in the DC/NYC area, and also plan to take a few days of vacation.
