We might want to talk first as there are some nuance and specifics that are important, especially in depreciation plans

Subject: Draft Landing Page Content - PQC

Hey Matt,

Kevin asked me to put together some draft website content mapping NIST's PQC work to the PCQ White House Memo actions (the content will live or hang off of <https://www.nist.gov/cryptography>).

I am going to finish up my draft today and will put something on your calendar to discuss shortly—just wanted to give you a heads up and let you know. When the final content is ready, Thelma can help us bring it to life online.

Thanks so much,

Kristina
