---

Hi, Zuzana,

You are correct that John Kelsey and I will attend ICMC in Vancouver. I do not know if any one will attend college park event. I can ask. If this is for group travel, then we do not need to include those names, because Carl worked there at least twice a week. Gorjan's travel is not covered by us. Bill Fefferman has worked there all the time.

Lily

Hi Lily,

I know that you and John Kelsey will be attending the following event:

**Event Name: • International Cryptographic Module Conference 2019**

Event Start Date: 5/14-17, 2019

Event Location: Vancouver, Canada

However, do we have any group members going to the College Park event (or any other event on the list below)?

Thank you,

Zuzana

**Subject:** [Itl\_grpsecy] Group Travel Events for Vetting Response due by April 4, 2019

Good afternoon,

I have received notification of four ADLP group travel events for vetting.

Please query your division to see if anyone is planning to attend the travel events referenced below.

If your division has staff planning to attend, please provide me your response and update your division travel spreadsheet by **COB on Thursday, April 4, 2019.**

If your division will not have staff attending, please let me know by the same date.

Thank you in advance for your assistance!

Melissa
