I think they do not allow to forward the attachment. The one with attachment bounced back.

Can you just copy the important text and paste it into a new email?

Office365 thinks it is detecting banking info (a "routing number"), and so it won't allow you to forward it. Routing numbers are usually 8 or 9 digits numbers that banks use.

Your message to [dustin.moody@nist.gov](mailto:dustin.moody@nist.gov) couldn't be delivered.

A custom mail flow rule created by an admin at [nistgov.onmicrosoft.com](https://nistgov.onmicrosoft.com) has blocked your message.

Delivery was blocked because it detected an ABA Routing Number. Review your message, remove offending data, and resend.

		Blocked by mail flow rule

#### How to Fix It

An email admin at [nistgov.onmicrosoft.com](https://nistgov.onmicrosoft.com) has created a custom mail flow rule that blocks messages that meet certain conditions, and it appears that your message has met one or more of those conditions.

- Check the text above for a custom message from the email admin that may help explain why your message was blocked and how you might be able to fix it. For example, removing prohibited words from the message or sending the message from a different email account may be sufficient to deliver your message.

If you've tried and you're still not able to fix the problem, consider contacting the email admin at [nistgov.onmicrosoft.com](https://nistgov.onmicrosoft.com) to discuss what to do. While they're unlikely to remove or relax the rule, if you have a legitimate need to deliver your message they may offer guidance for how to do so.

#### More Info for Email Admins

Status code: 550 5.7.1\_ETR

This error occurs because an email admin at [nistgov.onmicrosoft.com](https://nistgov.onmicrosoft.com) has created a custom mail flow rule that has blocked the sender's message.

In some cases, the sender can change the message so it no longer violates the rule. However, depending on the rule's conditions, it's possible that the only way to deliver the message is to change the rule itself, and only an email admin at [nistgov.onmicrosoft.com](https://nistgov.onmicrosoft.com) can do that. Although it's possible the rule is unintentionally flawed or it's stricter than the admin intended, it may be working exactly as they want it to.
