Dustin:

Thanks, That is a good idea. Please involve Albrecht when we can. In the past, we often expect the guest researchers to take initiative for collaboration. Albrecht has been quiet and we do not know if he likes to be left alone or we shall try to talk with him.

Lily

Subject: Albrecht

Lily,

Albrecht came by today, and told me he is feeling a bit unhappy and isolated. He said he is working on his own research, but would very much like to be more involved with people here at NIST. I am going to set up a meeting next week for those who do research on the PQC team to get together and talk about what we are working on, with the goal of fostering more collaboration. Daniel will be here next week, so he can attend.

Wanted to let you know.

Dustin
