Dear Prof. Dr. Yi-Kai Liu:

Thanks a bunch for your e-mail and the QuICS mailing list which I just subscribed to.

As there are indeed tons of possibilities for collaboration between QuICS and CTL, I will take the initiative as well as leadership (under your leadership) with passion and full dedication.

With respect to my research fields of (AI, quantum computation/communication, and 6G communications system) which I am heavily engaged with, I am also very much interested in contributing to your leadership! For instance, we can write an absolutely innovative and bold multi-disciplinary proposal for an internal NIST funding.

I am always looking for gigantic challenge and hence I would be very grateful for your engagement and leadership!

Cordially and respectfully,
Tilahun

Dear Dr. Getu,

It was nice chatting with you too! Yes, I think there are interesting possibilities for collaboration between QuICS and CTL...

Also, you're welcome to attend any of the QuICS seminars, the schedule and mailing list are here:

<https://quics.umd.edu/>
<https://lists.umiacs.umd.edu/mailman/listinfo/quics-announce>

Cheers,

--Yi-Kai

Subject: It was very nice speaking with you!

Dear Prof. Dr. Yi-Kai Liu:

This is the Ethiopian researcher whom you spoke with after today's talk on *distributing quantum entanglement*. It was a tremendous delight to get to know you and talk to you.

This is to get connected with you via e-mail so that I will get the opportunity to get involved in your research as well as professional activities.

Pleasant day (also weekend) ahead and I am grateful for your time!

Sincerely and respectfully,
Tilahun

Dr. Tilahun M. Getu
