Subject: RE: [nihms] NIHMS923321: Approve Submission of Manuscript

Hi Lily,

I would reach out to the NIHMS help desk and see why it's telling you the ticket is no longer valid. It may be a glitch in the system.

If you have any questions, please contact the NIHMS Help Desk at <https://www.nihms.nih.gov/db/sub.cgi?page=email>.

Sara

Subject: FW: [nihms] NIHMS923321: Approve Submission of Manuscript

Hi, Jim and Sara,

I need some help here to complete the procedure. First, I do not know how to access the system in the step one. Actually, when I click NIST, I was told that "ticket is no longer valid." "No manuscripts which need action by you." Shall I ignore it?

Thanks,

Lily

"Cryptography Standards in Quantum Time - New wine in old wineskin?"
(NIHMS923321, Publ.ID: ChenIEEESecurityandPrivacy201710)

[NOTICE: This is an automated message from the NIH Manuscript Submission (NIHMS) system. To contact NIHMS staff, please go to <https://www.nihms.nih.gov/db/sub.cgi?page=email&mid=923321>]

Dear Lidong Chen,

Your action is needed to complete the submission process for a manuscript submitted to the NIH Manuscript Submission (NIHMS) system for inclusion in PubMed Central (PMC). NIST Deposits has submitted the following manuscript in compliance with the funding agency's public access policy (see <https://www.nihms.nih.gov/db/sub.cgi?page=publicaccess>):

Journal name: IEEE security & privacy
Manuscript title: Cryptography Standards in Quantum Time - New wine in old wineskin?
The manuscript ID is NIHMS923321.

This process applies to research funded only by agencies listed on the [NIHMS Funders page](#). If the research was not funded by one of these agencies, please let us know. Otherwise, please be sure to associate or confirm any relevant funding support prior to approving the deposited materials. Applicable funding must be associated in the NIHMS system even if it was also acknowledged in the manuscript text.

There are three steps:

1. Access the System - Please click on the following URL to access the NIHMS system:

<https://www.nihms.nih.gov/db/sub.cgi?ticket=5d484438970f2183567f0d102b26f40f83b3e4dc>

NOTE: If the above link is broken, please copy and paste the entire URL into your browser.

****You must follow this link to find your manuscript.**** This link is a "ticket" that allows our system to match the manuscript with your login session.

Ticket Number:
5d484438970f2183567f0d102b26f40f83b3e4dc

2. Sign in to the NIHMS system. If you need assistance signing in, step-by-step tutorials are available at <https://www.nihms.nih.gov/db/sub.cgi?page=stepbystep>.

3. Review the initial deposit and click the "Approve" button if complete. (If there is another author or PI who you think would be more appropriate to serve as the Reviewer, you may reassign Reviewer duties under "Step 3. Reassign Reviewer.")

Upon your approval, the manuscript will be processed and prepared for PMC. This conversion process takes approximately 2-3 weeks (exact times vary by current submission volume). You will again be notified via e-mail when the PMC-ready documents are ready for final review.

If you have any questions, please contact the NIHMS Help Desk at <https://www.nihms.nih.gov/db/sub.cgi?page=email>.

Sincerely,

The NIHMS Help Desk
